For further information, please refer to the SDS.

### Physical Characteristics (Typical)

**Appearance**: Clear, colourless liquid

**Boiling Point/ Range (°C)**: 110

**Flash Point (°C)**: 4

**Specific Gravity/ Density (g/ml @ 15°C)**: 0.871

**Chemical Stability**: Stable at room temperature and pressure

### Product Ingredients

| Toluene | 108-88-3 | 100 |

For further ingredients information, please refer to the full SDS.

### GHS Pictograms

For further Risk and Safety information, please refer to the full SDS.

### Definitions

**Dangerous Goods**: Products that are classified as Dangerous for Storage and Transport; these products are allocated a UN No., with accompanying Class, Pack Group, and Sub. Risk, if required. Products that do not have a specific description under the code, but have low flash points, or such, must be classified under their most significant risk, eg. Flammable Goods N.O.S. (Not otherwise specified), UN 1993

**Poisonous Substance**: Products that are classified under the poisons schedule are a poisonous substance. The proportion of the poison in the product will determine its numerical classification.

**Hazardous Substance**: Products are considered to be Hazardous if they pose an intrinsic risk to human or environmental health, such as mutagens (able to change DNA), teratogens (able to result in birth defects), carcinogens (able to generate cell abnormalities), etc. Materials are not hazardous substances if they pose risks such as potential for misuse, like flammability, or explosions when heated and ignited.
1. IDENTIFICATION

Product Name: Toluene
Other Names: Dimethyl Benzene, Xylenes (Mixed Isomers)
Chemical Family: Aromatic Solvent
Recommended Use: Industrial solvent, coatings ingredient, thinner component
Supplier: Sydney Solvents Pty. Ltd.
ABN: 51 104 642 695
Street Address: 3/10 Production Place, Jamisontown NSW 2750
Telephone: 02 4722 5060
Fax: 02 4722 5070
Emergency phone: CHEMCALL: 1800 127 406
All other inquiries: 1800 60 50 40

2. HAZARDS IDENTIFICATION

Hazardous Nature
This product is classified as hazardous under GHS for Australia criteria

Hazardous Classification
Flammable Liquids: 2; Acute Toxicity - Oral: 3; Serious Eye Damage/Irritation: 2A; Specific Target Organ Toxicity (Central Nervous System): 3; Acute Aquatic Toxicant: 3

Hazardous Statement
Highly Flammable liquid and vapour

GHS Pictograms

Flame
Silhouette/star
Exclamation Mark
Dead fish/tree

Hazard Statements
H225: Highly flammable liquid and vapour
H372: Causes damage to organs through prolonged or repeated exposure
H332: Harmful if inhaled
H315: Causes skin irritation
H360: May damage fertility or the unborn child
H305: May be harmful if swallowed and enters airways
AUH066: Repeated exposure may cause skin dryness or cracking
H336: May cause drowsiness or dizziness
H411: Toxic to aquatic life with long lasting effects

Precautionary Statements
P102: Keep out of reach of children.
P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. [As modified by IV ATP]
P260: Do not breathe dust/fume/gas/mist/vapours/spray.
P262: Do not get in eyes, on skin, or on clothing.
3. COMPOSITION: Information on Ingredients

4. FIRST AID MEASURES

For advice, contact Poisons Information Centre (Phone Australia: 13 1126) or a doctor.

Ingestion
If swallowed, DO NOT induce vomiting. Keep at rest. Seek immediate medical attention.

Eye Contact
Flush eyes with large amounts of water until irritation subsides. Seek immediate medical attention.

Skin Contact
Flush area with large amounts of water and wash area with soap if available. Remove contaminated clothing, including shoes, and launder before reuse. Seek medical attention for skin irritations.

Inhalation
Using proper respiratory protection, immediately remove the affected victim from exposure. Administer artificial respiration if breathing is stopped. Keep at rest. Seek immediate medical attention.

First Aid facilities
Provide eye baths and safety showers.

Medical Attention
Treat according to symptoms. Avoid gastric lavage: risk of aspiration of product to the lungs with the potential to cause chemical pneumonitis.

5. FIRE FIGHTING MEASURES

Shut off product that may ‘fuel’ a fire if safe to do so. Allow trained personnel to attend a fire in progress, providing firefighters with this Safety Data Sheet. Prevent extinguishing media from escaping to drains and waterways.

Suitable extinguishing media
Dry chemical or foam. Do not use water jet

Hazards from combustion products
A complex mixture of airborne solids, liquids and gases, including carbon monoxide, carbon dioxide and other organic compounds will evolve.

Precautions for fire fighters and special protective equipment
Full protective clothing and self-contained breathing apparatus

Hazchem Code: 3YE

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures
Prevent fluid from escaping to drains and waterways. Contain leaking packaging in a containment drum. Prevent vapours from building up in confined areas. Ensure that drain valves are closed at all times. Clean up and report spills immediately.

Methods and materials for containment

Major Land Spill
- Eliminate sources of ignition.
• Warn occupants of downwind areas of possible fire and explosion hazard.
• Prevent liquid from entering sewers, watercourses, or low-lying areas.
• Keep the public away from the area.
• Shut off the source of the spill if possible and safe to do so.
• Advise authorities if substance has entered a watercourse or sewer or has contaminated soil or vegetation.
• Take measures to minimise the effect on the ground water.
• Contain the spilled liquid with sand or earth.
• Recover by pumping – use explosion proof pump or hand pump – or with a suitable absorbent material.
• Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
• See “First Aid Measures” and “Stability and Reactivity”

**Major Water Spill**
• Eliminate any sources of ignition.
• Warn occupants and shipping in downwind areas of possible fire and explosion hazard.
• Notify the port or relevant authority and keep the public away from the area.
• Shut off the source of the spill if possible and safe to do so.
• Confine the spill if possible.
• Remove the product from the surface by skimming or with suitable absorbent material.
• Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
• See “First Aid Measures” and “Stability and Reactivity”.

### 7. HANDLING AND STORAGE

**Precautions for safe handling**
This product is flammable. Do not open near open flame, sources of heat or ignition. No smoking. Keep container closed. Handle containers with care. Open slowly to control possible pressure release. Material will accumulate static charge. Use grounding leads to avoid discharge (electrical spark).

**Conditions for safe storage**
Store in a cool, dry place away from direct sunlight. Do not pressurise, cut, heat or weld containers - residual vapours are flammable. This product is flammable and will fuel a fire in progress.

**Incompatible materials**
Natural Rubber, Butyl Rubber, EPDM, Polystyrene

### 8. EXPOSURE CONTROLS: PERSONAL PROTECTION

**National Exposure Standards**
The time weighted average concentration (TWA) for this product is: 191 mg/m³ (50 ppm), which means the highest allowable exposure concentration in an eight-hour day for a five-day working week. The short-term exposure limit (STEL) is: 574 mg/m³ (150 ppm), which is the maximum allowable exposure concentration at any time.

**Biological limit values**
BEI: Biological Exposure Index - 0.5 mg/l o-Cresol in urine at end of shift.

**Engineering Controls: Ventilation**
The use of local exhaust ventilation is recommended to control process emissions near the source. Laboratory samples should be handled in a fume hood. Provide mechanical ventilation of confined spaces. Use explosion-proof ventilation equipment.

**Personal Protective Equipment**

**Respiratory Protection:** Where concentrations in air may exceed the limits described in the National Exposure Standards, it is recommended to use a half-face filter mask to protect from overexposure by inhalation. A type “A” filter material is considered suitable for this product.

**Eye Protection:** Always use safety glasses or a face shield when handling this product.

**Skin/ Body Protection:** Always wear long sleeves and long trousers or coveralls, and enclosed footwear or safety boots when handling this product. It is recommended that chemical resistant gloves (e.g. PVC) be worn when handling this product.

The values listed are indicative of this product’s physical and chemical properties. For a full product specification, please consult the Product Data Sheet.

10. STABILITY AND REACTIVITY

Chemical Stability
Stable at room temperature and pressure

Conditions to avoid
Sources of heat and ignition, open flames.

Hazardous decomposition products
Carbon monoxide, carbon dioxide and other organic complexes on incomplete burning or oxidation.

Hazardous reactions
Oxidizing agents, mineral acids, halogenated organic compounds and peroxides. Combination with Ethanol will result in potentiated (greatly increased) health effects similar to those in ingestion and inhalation.

Hazardous Polymerisation
Will not occur

11. TOXICOLOGICAL INFORMATION

Acute Effects

Ingestion
This material will cause irritation to the throat and tube to the stomach and may cause nausea. Vomiting may cause the product to be aspirated to the lungs possibly resulting in chemical pneumonitis.

Eye Contact
Eye contact with this product will cause redness and swelling with a burning sensation and blurred vision.

Skin Contact
Harmful in contact with skin. Symptoms include burning sensation, redness, swelling and possible blistering

Inhalation
Harmful by inhalation. Vapours will cause dizziness and drowsiness. There is the possibility of organ damage over prolonged use or exposure. Central Nervous System depression includes nausea, headaches, dizziness, and possibly loss of consciousness, coma and even death.

Chronic Effects
Repeated over exposure may cause hemolysis of the red blood cells leading to possible liver and kidney damage. Any existing dermatitis may be exacerbated by exposure to this product. Prolonged contact with this product will result in irritant contact dermatitis if care is not taken to wash affected areas. This product is regarded as a category 3 carcinogen which indicates that there have been reports of tumors in animal testing, but that there is no direct evidence of these effects in humans.
TOLUENE

Safety Data Sheet

Other Health Effects Information
Persons with pre-existing liver, kidney, central nervous system or skin complaints should avoid unnecessary exposure to this product. Every effort to protect eyes, respiratory tract and skin exposure should be taken in these circumstances.

Toxicological Information
Oral LD₅₀: Oral (rat): 636 mg/kg
Dermal TC₅₀: Skin (rabbit) LD₅₀: 14100 µL/kg

12. ECOLOGICAL INFORMATION

Ecotoxicity
Aquatic Toxicity
Fish Toxicity (rainbow trout, goldfish, bluegill): LC₅₀(96hr): Rainbow Trout EC₅₀: 7250 µg/L
Daphnia Magna EC₅₀ (24 hr): EC₅₀: 6000 µg/L
Blue-green algae (Toxicity threshold 7-8 days): No data available
Green algae (Toxicity threshold 7-8 days): EC₅₀: 400000 µg/L

Persistence/ degradability
Log P: 2.73 - volatilises in air.

Mobility
Floats on water. If product enters soil, it will be highly mobile and may contaminate groundwater.

13. DISPOSAL CONSIDERATIONS

Disposal Methods
Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national and local authorities. Packaging may still contain fumes and vapours that are flammable and harmful. Ensure that empty packaging is allowed to dry.

Special Precautions for Landfill or Incineration
This product is NOT suitable for disposal by either landfill or via municipal sewers, drains, natural streams or rivers. This product is ashless and can be burned directly in appropriate equipment.

Dangerous Goods Segregation
This product is classed as Dangerous Goods Class 3, packing group II. Please consult the Australian Dangerous Goods Code for Transport by Road and Rail for information.

15. REGULATORY INFORMATION

Country/ Region: Australia
Inventory: AICS
Status: Listed
Poisons Schedule: 6

16. OTHER INFORMATION

Reasons for Issue: Upgraded regulatory information and toxicity data. Amalgamated changes in all sections.

Date of Issue: November 2016
Date of Review: December 2021
Emergency Number: CHEMCALL: 1800 127 406
Abbreviations:
AICS: Australian Inventory of Chemical Substances
CAS Number: Chemical Abstracts Number
IARC: International Agency for Research on Cancer
NOHSC: National Occupational Health and Safety Council
